

GIBBS BEACH, DUDLEY WOOD

 Saint Peter, Barbados

Dudley Wood is located in St. Peter on the very popular Gibbs Beach.

This charming chalet style beach house is built of bleached timber with a shingle roof and has a unique rustic ambiance. You enter the villa at mid level over a small wooden bridge, which leads from the off road parking area into the main living area. This level and the upper floor are built entirely of wood, with wooden floors, walls and exposed pickled pine ceiling. An informal sitting area provides laid-back comfort. Towards the beach are large picture windows and shutters that open to provide excellent pool and sea views (child safety bars have been installed for use as required). Two of the bedrooms are located off the sitting room; the master bedroom and a second bedroom are both en suite with king size beds. A spiral staircase connects all floors and leads up to a charming third bedroom with king size bed, located in the loft space. This has an en suite bathroom with shower. All bedrooms are comfortably furnished with air-conditioning. The spiral staircase also leads downstairs to a well equipped kitchen, with a small dining alcove, and the fourth bedroom (single size) with an en suite bathroom.

A door leads out to the enclosed garden which is surrounded by mature trees providing shade and privacy. There is a swimming pool and deck with sun loungers. Adjacent to the pool and deck is an alfresco dining area with a gazebo and another covered area features a built-in coral stone bar and a barbecue.

A gorgeous stretch of beach is just a few steps away through an arched gateway, with a wall mounted shower for rinsing off and crystal blue water that is excellent for swimming.

Property is enclosed with access to parking via remote control entry gates.
