STRATHCLYDE FIXER UPPER

Saint Michael, Barbados

In Strathclyde, just outside of Bridgetown, is a wonderful classic Barbadian-style home. This two-story fixer upper has four bedrooms and two bathrooms and is the ideal canvas for your renovation ideas.

The structure is situated on 7595 square feet of great real estate that is suitable for residential or business uses. Because of its older construction, it has larger rooms with lofty ceilings, contributing to the timeless majesty of other traditional Barbadian homes.

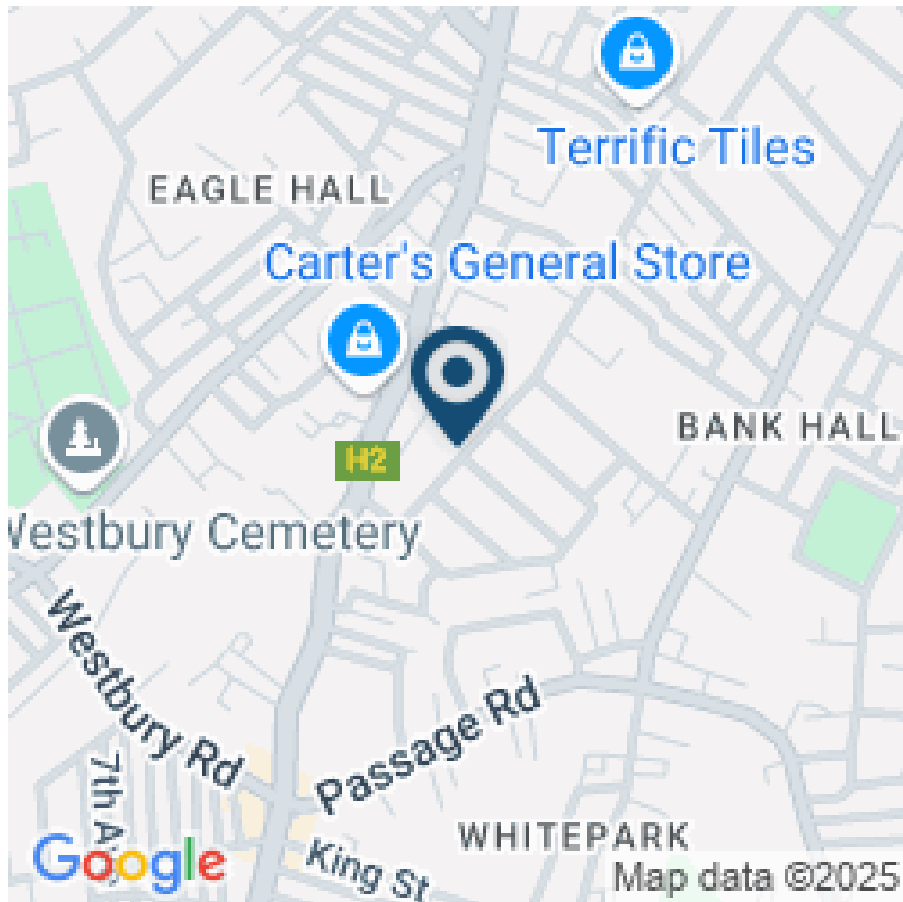

The house has a spacious yard, large enough to accommodate multiple cars. This house is also excellent for a private doctor or small legal company to remodel and function as a residence with an onsite office.

About the Location

Strathclyde has been regarded as one of Barbados most prestigious districts, with homes of comparable size and elegance. Despite being close to Bridgetown, Strathclyde still has a residential appeal; it is hard to believe the city is only a few hundred meters away.
