

35 WALKERS TERRACE

 Saint George, Barbados

The parish of St. George with its green lush vegetation, cool temperatures and central location is now one of the most sought after parishes on the island. This gently sloping corner lot is synonymous to what the parish represents, mature trees at the base and to the side of the property offers a cool relaxing shade as I learnt while scouting the vast lot.

Well-manicured hedges seclude the properties in the area, giving the neighborhood a charming feel. Two kilometers to the historic Gun Hill and walking distance to all of the amenities.

Call us today and schedule your viewing of this fantastic lot.
