

LOT #4A GREEN HILL ST. CHRISTOPHER

Christ Church, Barbados

Situated in the beautifully picturesque area of St. Christopher that borders the rugged coastline of the south is a plot of land that basically sells itself. It is surrounded by income generating properties and is large enough to be considered an investment opportunity.

As I scouted the area to see what the surroundings were like, a pleasant surprise greeted me in the form of a track that led to magnificent views of rolling waves and fresh sea breezes.

Just three kilometers to our famous Oistins, which is a hive of activity and features all of the amenities.

Give us a call today and let us discuss the possibilities.
