

WAVECREST (CORAL POINT I)

 Saint Philip, Barbados

Set on a promontory overlooking the southeastern coast of Barbados, Coral Point affords its guests complete seclusion. Immediately below, the Atlantic Ocean rolls in against the rocks with a steady, tranquilizing sound. To the west, steps cut into the coral lead down to a sheltered, palm-shaded beach. Guests who prefer the convenience of a swimming pool, or who like to take a fresh-water dip after a swim in the sea, will appreciate the fact that this villa has its own pool set on the cliff front with a dramatic view of the beach and ocean. In addition the complex has a shared pool which is the central feature of the artfully-landscaped garden-court that is shared by three luxury villas on the point.

The villa has four air conditioned bedrooms. Three of the bedrooms have ensuite bathrooms while the fourth bathroom is located across the hall from Bedroom 3 so it is also easily accessible to invited guests without having to access through the bedroom.

The vaulted, double-height living/dining space is stained white, decorated with elegantly casual furniture, and the expanse of French doors enables this room to be entirely open to the views of the ocean. The villa also includes a well-equipped kitchen, washer and dryer. There is a large patio for sunbathing as well as a covered patio for those wanting to avoid the sun while still being able to be in close contact with the 'sun-worshippers'. These patios are perfect for reading during the day, cocktails at sunset, or alfresco dining at any hour.

Maid service is currently provided 3 days a week for rental guests, and on request, arrangements can be made to have a cook.

No pets allowed

The video below shows the Sam Lord's beach and clearly shows Wavecrest on the cliff overlooking this beach. Click on the arrow shown in a circle to restart the video.
